

EnviroCheck✓

60G Clear Laminate

Product Description

Galaxy EnviroCheck 60G Clear Laminate is a high gloss, PVC-free, 60 micron top-coated polypropylene lamination film, typically used as a matching over-laminate to Galaxy EnviroCheck 100G Self-Adhesive Media.

The film and adhesive has built-in UV stabilizers for outdoor use, and is laminated with a high coat weight, pressure-sensitive permanent clear adhesive.

Suitable for indoor and outdoor display graphics, with up to 4-year outdoor durability.

The **PVC-free** composition is an excellent environmental choice for brands looking for a sustainable way to visually communicate.

Advantages

- ✓ **PVC-FREE**
- ✓ High clarity
- ✓ High gloss finish
- ✓ Excellent dimensional stability

Applications

- ✓ Point of sale
- ✓ General signage
- ✓ Event graphics
